

CARETREAT BIO-ACTIVATOR-GTP

Biological activator substrate for long lasting optimization of grease eating bacteria cultures

- Economical in use
- ECO friendly
- Optimizes Bio-Treatment
- For use in Tanks, drains and Grease Traps

DESCRIPTION

Caretreat BIO-Activator-GTP offers environmentally sustainable, highly effective and long-lasting biological treatment. Biotreatment is based on two key principles: bioaugmentation and bio-stimulation. Bioaugmentation adds micro-organisms to specifically degrade targeted waste. Biostimulation adds nutrients to stimulate activity in naturally present micro-organisms, as well as in those added by bioaugmentation.

ADVANTAGE

- Economical to use - effective at lower dosage levels
- ECO-friendly
- Optimizes Bio-treatment

APPLICATIONS

Caretreat BIO-Activator-GTP is powered to employ eco-friendly nutrients, minerals and micro-nutrients specifically selected to boost Marine Care micro-organisms. Protects targeted micro-organisms so they keep working, even in extreme conditions.

TANKS

GREASE TRAPS

DRAIN LINES

Caretreat BIO-Activator-GTP stabilizes pH and enriches waste medium to optimize biotreatment of tanks, grease traps and piping. For best results, use Caretreat BIO-Activator-GTP each time a treatment is started and restarted, and during maintenance.

DIRECTIONS FOR USE

Caretreat BIO-Activator-GTP must always be diluted. Do not use bactericides as they will kill the bacteria culture. Product is dosed in following dilutions:

1. Dilute recommended dose in a bucket of lukewarm water (20-30°C)
2. Stir well
3. Pour into drain that is furthest from the facility

Note: 100-g measuring cap provided for easier mixing.

Grease traps:

500 g to 1 kg / m3 trap volume every 2 months as a maintenance dose. Every initial start up or after a cleaning of the trap, add 500 gram to 1kg/ m3 trap Caretreat BIO-Activator-GTP

For optimum results treatment of Caretreat BIO-Activator-GTP is used in conjunction with Caretreat BIO-GTC-P and Caretreat BIO-GCT-L

DOSAGE

See Direction for use.

PROPERTIES

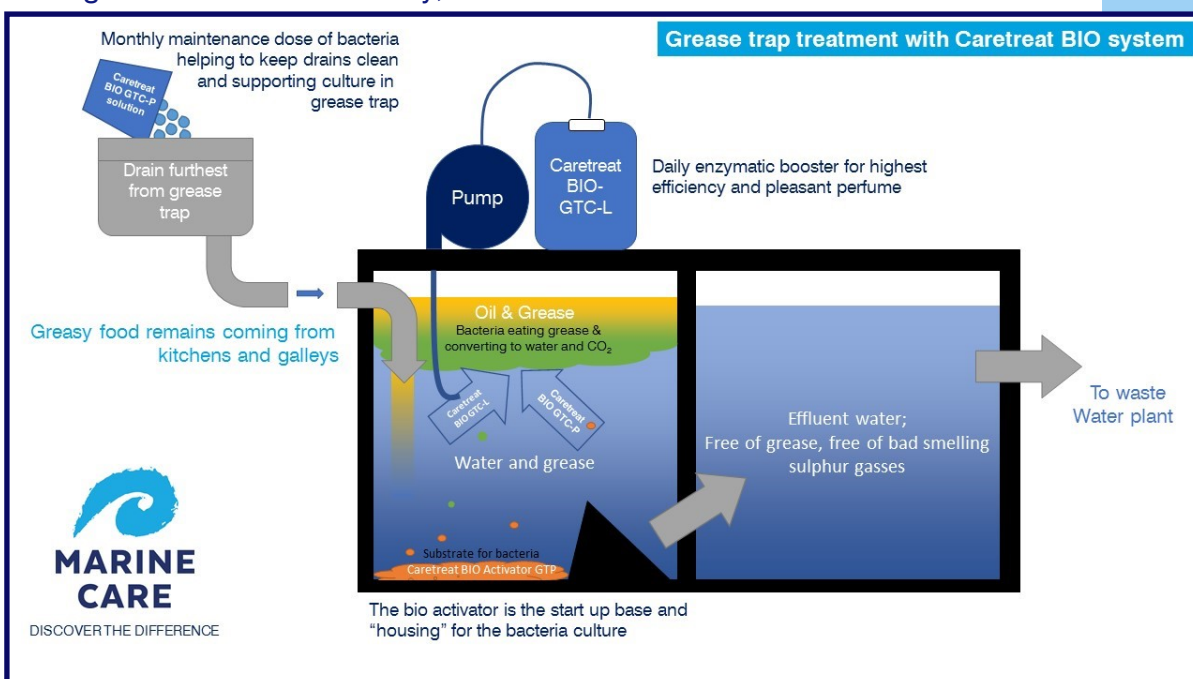

| | |
|--------------------|---------------------|
| Article number | 14721 |
| pH | 5.5 - 6.5 |
| Physical State | Beige powder |
| Flashpoint | Not applicable |
| Packaging | 25 kg bucket |
| Storage conditions | Dry, > 5 °C < 40 °C |
