

CARETREAT BIO-GTC-L

Liquid Biotreatment component for breakdown of grease in Greasetraps

- Specialized in Grease Digestion
- ECO friendly
- Prevents Clogging and Deposits
- For use in Drain Lines and Grease Traps

DESCRIPTION

Caretreat BIO-GTC-L is powered to employ eco-friendly nutrients, minerals and micro-nutrients specifically selected to boost micro-organisms. Protects targeted micro-organisms so they keep working, even in extreme conditions. Caretreat BIO-GTC-L offers environmentally sustainable, highly effective and long-lasting treatment of grease traps, adjacent drain lines and pipes.

Caretreat BIO-GTC-L is powered by the various processes, which combine eco-friendly microorganisms, specialized in grease digestion, and suspended in liquid, with the power of bio-surfactants. The product lessens trap grease, prevents deposits and clogging, removes bad odors, and reduces cleaning and pumping frequency. Helps eliminate grease in drain lines upstream and downstream, all the way to the treatment plant.

Caretreat BIO-GTC-L is enriched with an exclusive complex developed by Marine Care Laboratories that imits the formation of foul-smelling gases, such as H₂S. Its natural essential oils of lemon and grapefruit leave a pleasant fresh perfume.

GREASE TRAPS

DRAIN LINES

DIRECTIONS FOR USE

Do not use bactericides in the systems as they will kill the bacteria culture.

INITIAL START-UP DOSAGE

2000 to 4000 meals/day

Add 600 mL each day Caretreat BIO-GTC-L + 3 kg of Caretreat GTC-P + 2.5kg Caretreat Bio-Activator-GTP

4000 to 8000 meals/day

1200 mL each day Caretreat BIO-GTC-L + 6 kg of Caretreat GTC-P + 5kg Caretreat Bio-Activator-GTP

8000 to 12000 meals/day

1800 mL each day Caretreat BIO-GTC-L + 9 kg of Caretreat GTC-P + 7.5kg Caretreat Bio-Activator-GTP

12000 to 16000 meals/day

2400 mL each day Caretreat BIO-GTC-L + 12 kg of Caretreat GTC-P + 10kg Caretreat Bio-Activator-GTP

MAINTENANCE DOSAGE

2000 to 4000 meals/day

600 mL each day + 3 kg of Caretreat GTC-P each month

4000 to 8000 meals/day

1200 mL each day + 6 kg of Caretreat GTC-P each month

8000 to 12000 meals/day

1800 mL each day + 9 kg of Caretreat GTC-P each month

12000 to 16000 meals/day

2400 mL each day + 12 kg of Caretreat GTC-P each month

Before treatment

After treatment

We strongly advise starting a grease trap biotreatment after a conventional cleaning, to remove any problem residue. For application to an operating grease trap, we recommend breaking the surface crust beforehand so that the product is properly in contact with the effluent.

For optimum results treatment of Caretreat BIO-GTL-L is used in conjunction with Caretreat BIO-GTC-P and Caretreat Bio-Activator-GTP.

This information is based on data that we believe to be accurate and reliable and is intended to be used by persons having the knowledge and skill to apply this product properly. We assume no responsibility for results or damages incurred from their use by the Buyer. No liability (including liability for negligence) will attach to Marine Care or its servants or agents arising out of or in connection with or in relation to this product information.

DOSAGE

See Direction for use.

PROPERTIES

Article number	14722
pH	9
Physical State	Yellow / Orange Liquid
Flashpoint	Not applicable
Packaging	30 liter pail
Storage conditions	> 5 °C < 40 °C

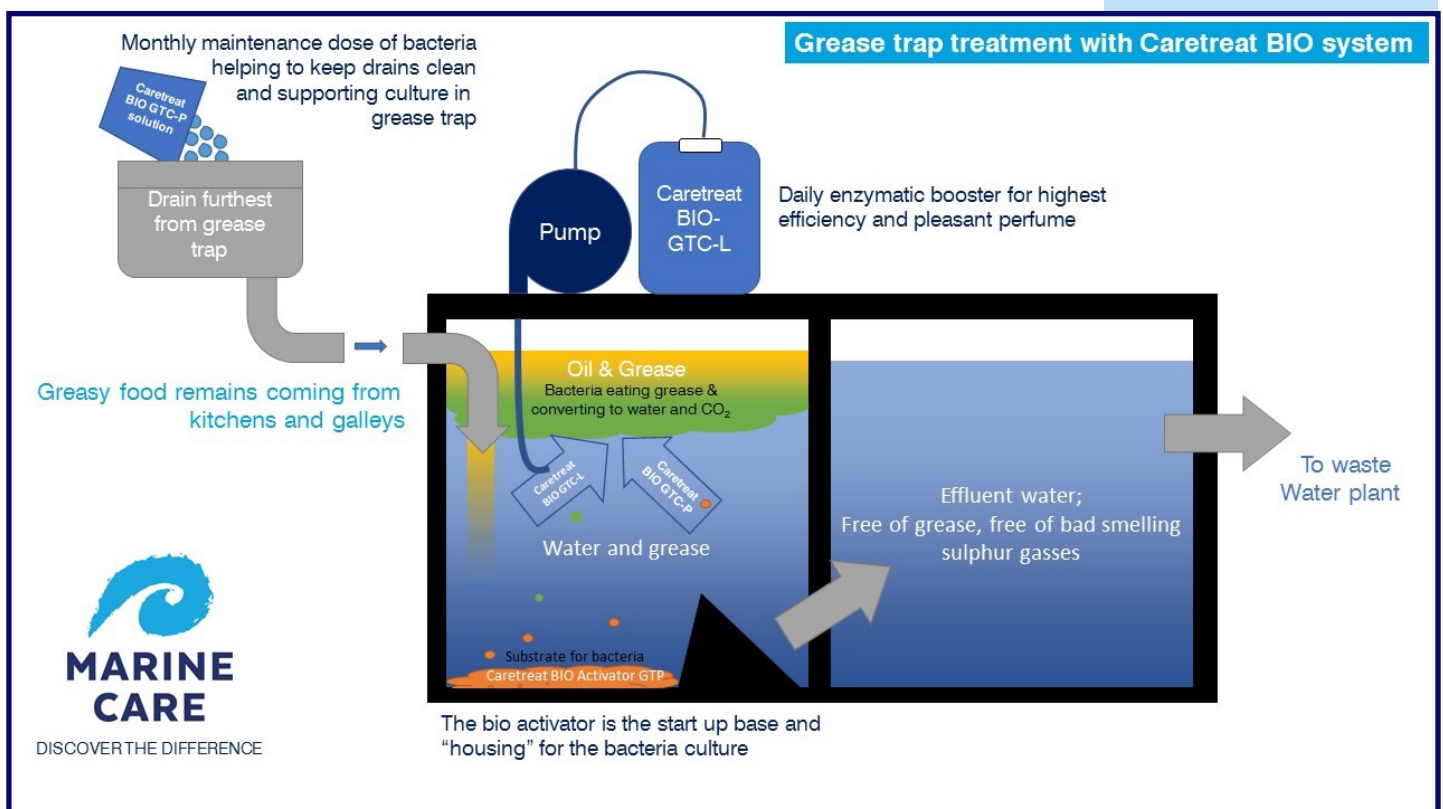

For detailed information on safety and health, please refer to the Material Safety Data Sheet MSDS and/or product label.
